

Customer Recommendations:

His team went Over and Above

"We had our solar panels installed at the same time as we installed a new spa, we were rather nervous to receive the next power bill but to our delight we are happy to report not only did our power bill not go up it went down!! We can keep track of power peaks and adjust our day-to-day usage to make the most of solar power. Nigel and his team went over and above with their service, we have recommended them to others who have also found them excellent to work with. If they say they will be there they are !!!"
